PROFILE

Cybersecurity professional with 2+ years of experience in cybersecurity and digital forensics. Experienced in Red Team adversary emulation, malware analysis, reverse engineering, log analysis, and cyber fraud investigations. Worked with Miratech AI as a Red Teamer and supported police departments in digital forensic investigations. Also have 1 year of experience teaching practical cybersecurity skills to professionals and students.

WORK EXPERIENCE

- Teaching** 2025-2026
SOC , Malware & Reverse-Engineering
 - Trained students and professionals in Malware Analysis, Reverse Engineering, SOC, and Log Analysis using tools such as IDA Pro and x64dbg. Conducted hands-on malware investigations covering static/dynamic analysis and IOC identification. Also supported police departments in cyber fraud investigations, digital evidence analysis, and malware-related cases.
- Wagh Defence Private Limited** 2023-2025
Managing Operations and Technical Roles
 - Managed day-to-day operations, technical projects, and execution across the organization.
 - Led technical research, product development, and implementation of cybersecurity and defence technology initiatives.
 - Coordinated teams, vendors, and stakeholders to drive projects from planning to execution.
- MeeraTech AI** 2022-2023
Red-Teamer
 - Conducted Red Teaming, Adversary Emulation, Attack Simulation, and Security Assessments to replicate real-world attack scenarios.
 - Identified Attack Paths, Vulnerabilities, and Security Gaps and provided findings to strengthen defensive controls.

EDUCATION

- Bachloer of Business Administration** 2017-2019
Prerna College of Commerce
- Bachloer of Engineering Computer Science** 2015-2017
Jhulelal Institute of Technology (dropout)
